

Drama Club / Speech

1. During which months of the school year does your club take place?

Drama Club begins in early September and runs through the first half of November.

2. When does your club meet? (before school, after school, both)

Drama Club meets after school. Practice times and schedules are determined after students are assigned to coaches. We do everything we can to schedule student practice times around the many other activities at HCMS.

3. How many members do you currently have involved?

The Drama Club team has an average yearly membership of 60-80 HCMS students.

4. Are members automatically accepted or is there a try-out process?

Students members are accepted during the initial signup period, however due to state competition regulations, no students can be added after the state date. In addition, practice attendance is required in order to be ready for state competition.

5. What is the primary goal of the club?

The primary goal of Drama Club is to prepare our students for the IESA State Regional Competition in November. Drama Club builds confidence, speaking skills, teaches students to work toward a common goal, fosters new friendships, and helps individuals discover hidden talents. Former HCMS students have come back years later and stated that joining Drama Club changed their lives, giving them the confidence to go out for other things.
