

COMMUNITY CONSOLIDATED SCHOOL DISTRICT 157-C

Education of Homeless Children

Frankfort School District provides a variety of resources and programs to assist in the education of homeless children. Identification of homeless families and children is critical to providing available supports and resources, and Frankfort School District therefore in-services various levels of staff to assist in the identification of such families and students. As provided for through both the Federal McKinney-Vento Act and the State Homeless Students and Unaccompanied Youth Act, Frankfort School District provides a variety of different supports and services related to the education of homeless students. Additionally, the school district works with the Will County Regional Office of Education, the Will County Continuum of Care, and the Illinois State Board of Education to assist families and students for referrals to other social services, counseling services and outside services not provided as part of the basic educational programming of the school district. In addition to building level Homeless Liaisons who work directly with identified students and their families, the school district has appointed a district-wide Homeless Liaison Coordinator who helps coordinate the identification and support for homeless students and their families both within the school setting and outside of the school environment. The Homeless Liaison Coordinator's contact information can be found below. Additionally, school board policy related to the education of homeless children can be found in section 6:140 of the School Board Policy Manual. If you have any questions please contact the Homeless Liaison Coordinator or the Superintendent in the District Office. Thank you.

Homeless Liaison Coordinator
Kate Ambrosini, Director of Business and Operational Services
10482 W. Nebraska Street
Frankfort, IL 60423
