Weekly Quiz Correction

Name of Article:_____ Lexile:_____

The questions you need to relook at are: #_____ #_____ #_____ #_____

Directions: Write your answers in paragraph form. Your **first sentence should restate the question and give the correct answer**. **Do not** simply rewrite the question and the answer letter. Then you **cite proof** from the text: either a direct quote in quotation marks and citation credit OR a paraphrase what the article says. If you paraphrase you must still tell where in the article you found it. For example, *The evidence to prove this answer is found in paragraph 9 where it says….* Finally, you **must EXPLAIN just how the proof backs up the answer**. Your paragraph should **use adequate transitions words** to enable you reasoning to flow logically.
