815-469-4474 (4127)

Overview

- Students will learn, expand upon and solidify the concepts in pre-algebra. Students will use continue to learn how to compute and reason mathematical problems. This class will prepare the student toward having the base concepts in order to succeed in algebra. Concepts include, math facts, order of operations, integers, equations, geometry, fractions, percents and decimals.

Grading

- Grading will be based on total points. Each assignment will be given a point value. Students will earn points based on quality and completion of work. Total points will be added throughout the trimester and final grade will be determined. Tests and quizzes will be given throughout the year.
- | | |
|-------------|--------------|
| • 90 -100 A | 60 – 69 D |
| • 80 - 89 B | 59 Below = F |
| • 70 – 79 C | |

Homework Policy

In order to earn full credit, a student must turn assignments in on due date.

Late work is expected and strongly encouraged to be turned in for partial credit.

- ALL late work must be turned in **before** the end of the unit test in order to receive credit.
- If a student accumulates **3 missing or late assignments**, parent contact will be made through progress report, late sheet, and/or phone call.

Daily Required Materials

- Binder
- Math Notebooks (wide rule)
- Assignment Notebook
- Pens and Pencils (3 red pens)
- Highlighters
- Calculator
- Math Textbook

Character Management
