

Code Red Drill

Today we have a Code Red drill. This is a practice to keep me safe in the classroom. I will hear an announcement or beeps from the speaker. When this happens, my teacher will turn off the lights, close the blinds and lock the door. I will listen for instructions. It is very important that my voice is off and my body is still to keep me safe. Sometimes we will have short drills, sometimes we will have long drills, but it is ok. I will hear an announcement from the speaker when the drill is over. After the Code Red Drill I will feel safe and calm.
