

# First in Line

No Way

I do not always have to be first in line.

Everybody likes to be first in line, and that is why we need to take turns. Sometimes, other kids get sad or mad if they do not get a turn at being first in line.

Kids will be happy with me and like me more if I sometimes let them have their turn being first in line.

My teacher helps make sure that everyone gets a turn being first in line.

No matter where I stand in line, I will still get to where I am going and not miss out on any activities.

Being first in line is not as important as taking turns. That is why I do not always have to be first in line when leaving the room.
