

# Hands do not belong in my pants

Hands do not belong in my pants or pockets at school.

**no way!**

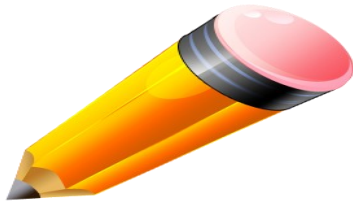

Sometimes I feel like putting my hands in my pants or my pockets when I am at school.

When I put my hands in my pants or pockets, they get dirty and make it easy to spread germs.

Instead of putting my hands in my pants or pockets, I can hold a pencil or put my hands on the top of my desk.

If I forget, my teachers will help remind me. They will either quietly tell me or let me know by flipping over their hands

This will help me to remember that my hands do not belong in my pants or pockets while at school.
