

# I have to do work

School work is very important and I have to do it.

School work lets me show my teacher how much I know about a subject

School work is just more practice. I am very smart, and the more I practice the smarter I become.

It is not okay for me to tell my teacher that I do not want to do my school work. If I do not do my work in school, my teacher will have to send it home for homework.

School work is sometimes hard. If I do not understand I can always ask my teacher for help.

I will do all of my school work so that my teacher can see just how smart I really am!
