

Tornado Drill

Sometimes at school we have tornado drills.

Tornado drills are practice in case there is a tornado at our school. Tornado drills are not real tornadoes. I will hear a beeping from the speaker. My class will line up and go to a safe place. When I get to my safe place, I will kneel down, put my body to my knees and my hands over my head. I need to stay this way to keep me safe. I will keep my body still and my voice off. When my teacher tells me it is safe, I will stand up and go back with my class. After the tornado drill I will feel safe and calm.
