

Waiting My Turn

I have to wait my turn, it is not an option.

I do not like to wait in line, but either do other people. It is never ok for me to cut in front of another person in a line.

Kids will be happy with me and like me more, if I wait my turn.

Some places that I need to wait my turn at school are in the bathroom, lunch line, water fountain, asking the teacher a question, turning in my homework and checking out a book at the library.

I do not have to worry about how long a line will take, because I will get to do what I am waiting for and my teachers will help make sure of this.

I have to wait my turn. No matter what. It is not an option when I am at school.
